Re: Annual notification of the availability of the Asbestos Management Plan

In order to meet the requirements of the Federal AHERA Law (Asbestos Hazard Emergency Response Act, Public Law 99-519), each school building within the Commission has been inspected for building materials that are suspected to contain asbestos.

A periodic surveillance to detect any deterioration in the materials that contain asbestos will be carried out every six months. Every three years, each asbestos containing building material will be re-inspected by an accredited inspector. This plan for re-inspection meets the requirements of the AHERA Law.

A full report of the asbestos inspection is available for your review in the Main Office of Hillcrest Academy North, 2630 Plainfield Ave, Scotch Plains, N.J. 07076; The Recreation Director, Township of Clark, 430 Westfield Ave, Clark, N.J. 07066 or at the Union County Educational Services Commission Office, second floor, 45 Cardinal Drive, Westfield, N.J. 07090. You may review the plan at either location Monday through Friday, 8:30 AM to 4:00 PM.

The Office of the Business Administrator/Board Secretary is also available to answer any questions that you may have about the Inspection Report/Management Plan for Asbestos.
